

COAGULANT WT-426

GENERAL DESCRIPTION

WT-426 is a proprietary iron-based blended product that includes an organic cationic coagulant and organic agitation agent that promotes coagulation. WT-426 is effective as a re- placement for any iron-based product and helps in treating waste streams containing a high level of organics. The organic agitation agent also helps promote reduction at a lower pH.

APPLICATION

- Intended for use in batch treatment and flow-through precipitation applications.
- Will achieve charge neutralization and promote solid/liquid separation.

SAFETY AND STORAGE

- WT-422 is acidic and should be handled with care. Do not use iron, copper, or aluminum in storage or delivery systems. Keep product from freezing and thawing completely before use. If spilled, product is slippery and should be scooped up before flushing with water.

MISCELLANEOUS

- Packaging comes in 5-gallon pails and 55-gallon drums. Consult MSDS sheet for additional information.
- The information given in this technical data sheet is to the best of our knowledge accurate. It is intended to be helpful but no warranty is expressed or implied regarding the accuracy of such data. It is the users responsibility to determine the suitability of his own use of the product described herein; and since conditions of the use are beyond our control, we disclaim all liability with respect to the use of any material supplied by us. Nothing contained herein shall be construed as permission or as recommendations to practice any patented invention without a license from the patent owner nor as

Physical Properties

PROPERTIES	VALUES
Specific Gravity	1.38
Appearance	Dark greenish-brown liquid
PH	1
Odor	Slightly pungent
Flash point	>200F

Operating Parameters

PARAMETERS	AVAILABILITY
Mixing Speed	Medium-to-high
Contact Time	2-5 minutes for general coagulation
Ventilation	Advised
pH Range	Most effective if dosage at low pH
